| Comments | Problem statement has been updated, which is great. To further improve it, you must ask yourselves what are the real pain point(s) behind this problem? And you need to take into account the ski enthusiasts perspectives. What are their pain points that the German Ski Association in its position could offer a solution for? The problem statement should focus on the target audience and present the real problem (= the pain point(s)). Furthermore, a problem statement should not include the solution or indications of it. |
