Comments	Excellent start. Very well documented research. Team Canvas could be further developed, as it is too generic now. Especially on "people and roles" naming the team members, their profiles and roles on this project.

Total Points	18
Comments	Problem statement has been updated, which is great. To further improve it, you must ask yourselves what are the real pain point(s) behind this problem? And you need to take into account the ski enthusiasts perspectives. What are their pain points that the German Ski Association in its position could offer a solution for? The problem statement should focus on the target audience and present the real problem (= the pain point(s)). Furthermore, a problem statement should not include the solution or indications of it.

Assignment 3: Grade 8%: max. 80 points

Total Points	58
Comments	<p>Good work. But it was not possible to understand your ideation process and how did you evolve from the first version of the storyboard to the final version as you did not document any feedback from ski enthusiasts. Something as simple as sharing it with family and friends (that fit the criteria) for an initial feedback would have been Ok.</p> <p>Your storyboard is clear, however it does not describe the customer journey through your application. It pictures 2 skiers talking in person about it and not the user journey from having the problem to solving the problem through the app. How are friendships fostered on the app?</p> <p>On your FAQ you focus on functionalities, but it lacks addressing the benefits and value proposition: Why should the ski enthusiasts join at all? What do they get from it?</p>

	<p>Is there a possibility of creating a fictional championship among amateur skiers?</p> <p>On the questions regarding the German Ski Federation you did not address the participation of their sponsors, how can these benefit from the app? Ads? Sponsor prizes to the players? Can there be a e.g. "Audi Championship" that the app players can join with their teams?</p> <p>What about clubs, which the federation mentioned are losing members and they don't have contact to them. Could there be an amateur liga with fun-games/challenges for them on the app rather than the profis?</p>

Comments	<p>The prototype in sprint 1 is well developed for sprint 1. It is relatively easy to follow, the goal and value proposition are clear and the look and feel is very well done for sprint 1. Overall, Well done!</p> <p>Next step is to get as much feedback as possible, please reach out to any person you have access to in your personal networks that the profile of end-</p>

	<p>user, but also the profile of another stakeholder you might have identified through your business model canvas.</p> <p>You wiki page is very well structured and of good quality for a final release.</p> <p>You use the GitHubs issues and the Kanban board to manage your team’s work, but it seems mostly only one team member is active managing it. It is key for virtual teams that team members are aligned in their to-dos and track the issues. Your team work does not seem balanced. Address your workload and organize yourselves to effectively collaborate in the next 3 weeks. Please pay attention to the grading scheme of the next assignments.</p> <p>P.s. Please note that the quizzes can be answered by December 8th. Each quiz is 30 points (3%). Hence, 15% (150 points) from your final individual grading comes from the quizzes. You have 3 attempts per quiz to reach maximum points.</p>
